# TAREK ELSAYED ELARINY

Phone: 01099977205 | Email: tarekelariny123@gmail.com | Location: Cairo, Nasr City

## Career Objective

Highly motivated and detail-oriented Data Analyst with hands-on experience in Power BI, Excel, SQL, and KPI reporting, currently working within the Quality Department at the Ministry of Communications and Information Technology. Skilled in transforming raw data into meaningful insights, interactive dashboards, and performance reports that support data-driven decision-making. Experienced in analyzing student performance, operational metrics, and quality indicators to identify trends, improve reporting efficiency, and enhance overall performance. Seeking to leverage analytical, reporting, and business intelligence skills in a challenging role where data can be used to drive measurable impact and continuous improvement.

---

## Work Experience

### Data Analyst – Digital Egypt Initiative, Quality Department

**Ministry of Communications & Information Technology – Cairo, Egypt** September 2025 – Present

- Develop and maintain interactive dashboards and analytical reports using **Power BI** and **Excel** to monitor **student performance, attendance, engagement, and quality KPIs**.
- Analyze trainees' data and operational performance metrics to support decision-making within the **Quality Department** and improve reporting effectiveness.
- Build advanced **DAX measures** and calculated columns to track key performance indicators, trends, and comparative performance metrics.
- Use **Power Query** for data extraction, cleaning, transformation, and preparation to ensure data accuracy and consistency across reports.
- Track and evaluate student progress, assessment results, completion rates, and participation metrics to identify performance gaps and improvement opportunities.
- Prepare **weekly and monthly performance reports** for management and stakeholders, presenting insights in a clear, structured, and professional format.
- Monitor quality assurance indicators and reporting accuracy to support continuous improvement initiatives and data reliability.
- Collaborate with cross-functional teams to gather business requirements, improve dashboard usability, and deliver reporting solutions aligned with operational needs.
- Support departmental performance monitoring by identifying patterns, trends, and anomalies within student and quality-related datasets.

- Contribute to improving reporting workflows through better organization of data sources, KPI definitions, and dashboard structures.

---

## Education

**Bachelor of Commerce in Accounting**

**Zagazig University**
**Graduated:** 2024
**Grade:** High Good (2.2)

---

## Technical Skills

### Data Analysis & Business Intelligence

- Data Analysis
- KPI Tracking and Performance Monitoring
- Quality Analysis
- Trend Analysis
- Data Cleaning and Transformation
- Data Modeling
- Dashboard Development
- Business Intelligence Reporting
- Data Visualization
- Report Automation
- Analytical Reporting
- Data Validation and Accuracy Control

**BI & Visualization Tools :** (power bi , Tableau, Looker Studio)

**Power BI:** (Dax, Power Query, Data Modeling, Interactive Dashboards, Kpi Reporting)

**Excel Skills** : (Advanced Formulas, Pivot Tables, VLOOKUP/Xlookup, Index-Match, Charts and Dashboard, Conditional Formatting, Data Cleaning, Financial Modeling )

**Databases & ETL** : (SQL, Database Fundamentals, SSIS Principles, Data Warehousing Fundamentals, ETL concepts) Intermediate

**Reporting & Productivity Tools** : (Microsoft Excel, PowerPoint, Word)

---

# Courses & Certifications

### DEPI (Digital Egypt Pioneers Initiative) – Data Analyst By Power Bi

**Nov 2025 – Present**

- Completed advanced training in **Power BI** and **Tableau** for building interactive dashboards and professional analytical reports.
- Developed and applied **DAX measures** to calculate KPIs, monitor performance, and generate actionable insights.
- Integrated **Excel** and BI tools for data cleaning, transformation, visualization, and reporting.
- Gained hands-on experience in creating visual reports and dashboards to support data-driven decision-making.
- Learned best practices in **data modeling, dashboard design, KPI tracking, and business reporting**.

### SQL & Database Fundamentals (self-learning)

**Nov 2025 – Feb 2026**

- Learned database design concepts, SQL queries, and data manipulation techniques.
- Applied database skills to organize, extract, and analyze datasets efficiently.

## Business Intelligence Principles

**Dec 2025 – Feb 2026** (self-learning)

- Studied BI concepts, data warehousing fundamentals, and ETL processes.
- Developed understanding of how business intelligence supports strategic and operational decision-making.

## SSIS (SQL Server Integration Services) – Self-study

**Nov 2025 – Feb 2026** (self-learning)

- Learned the fundamentals of ETL workflows and data integration processes.
- Practiced building structured data pipelines and improving data processing efficiency.

## Financial Analysis – Eyouth

- Gained skills in financial statement analysis, ratio analysis, and business performance evaluation.
- Applied financial analysis techniques to support decision-making and reporting.

# Projects:

**Full Portfolio**: [https://tarekelariny.github.io/My-Portfolio/]

## Bun Rush Restaurant Ordering & Analytics System

**Role:** Data Analyst / BI Developer
**Tools:** HTML, CSS, JavaScript, Firebase Firestore, Firebase Authentication, CSV, Power Query, Power BI, DAX
- Built an end-to-end restaurant ordering and analytics system from web ordering and cloud storage to data preparation and business dashboarding.

---

## Amazon Sales Data

**Role:** Data Analyst
**Tools:** Excel, Power BI, Power Query, DAX
- Analyzed Amazon sales data by cleaning and transforming raw datasets, building KPI measures, and creating an interactive Power BI dashboard to track revenue, profit, customers, and sales performance.

---

## Superstore Sales

**Role:** Data Analyst
**Tools:** Power BI, Excel, Power Query, DAX
Developed an interactive sales dashboard to analyze sales, profit, revenue, product categories, regions, and customer segments, helping identify performance trends and business improvement opportunities.

---

## Student Performance & Quality Monitoring Dashboard

**Role:** Data Analyst
**Tools:** Power BI, Excel, Power Query, DAX

- Created a KPI-focused dashboard to monitor student attendance, progress, assessment results, completion rates, and quality indicators within a training environment.

---

## Bank Credit Risk Dashboard

**Role:** Data Analyst
**Tools:** Power BI, Excel, DAX, Power Query
Interactive dashboard for analyzing default behavior, portfolio risk, and customer segmentation.

---

## Omnichannel Retail Performance Dashboard

**Role:** Data Analyst
**Tools:** Power BI, Excel, Power Query, DAX
- Built a retail performance dashboard to monitor revenue, net profit, COGS, AOV, profit margin, orders, customer segments, channels, campaigns, categories, and seasonal performance.

---

## Sales Analysis Dashboard

**Role:** Data Analyst
**Tools:** Tableau, Excel
- Designed an interactive Tableau dashboard to analyze sales, cost, profit, orders, countries, cities, employees, categories, and order types to support business performance monitoring.

## Languages

- **Arabic:** Native
- **English:** Upper Intermediate (B2)

## Soft Skills

- Analytical and Critical Thinking
- Communication and Teamwork
- Time Management and Organization
- Problem-Solving and Adaptability
- Leadership and Negotiation
- Ability to Work Under Pressure
- Self-Motivation
- Attention to Detail
